Overview

President Obama signed the American Recovery and Reinvestment Act into law on February 17, 2009. Intended to create or save 3.5 million jobs, the bill includes both targeted tax cuts and stimulative spending.

This document first outlines the tax relief included in the Recovery Act, explaining the tax cuts for individuals and businesses, energy incentives, and bond provisions for states and local governments. This information is largely a summary of provisions, as exact information on how to apply is not yet available from the IRS.

Next is a section on benefits for the unemployed, including family health insurance coverage assistance supported by Congresswoman Bean.

In the remaining sections, the grant, loan, and other funding allocations included in the Recovery Act are outlined. **This section is critical reading for any community government, school district or agency looking to apply for federal funding.** Local contact information is included whenever possible.

Check www.recovery.gov and <http://recovery.illinois.gov> for additional opportunities. If you apply for a grant, please contact Congresswoman Bean's District Office in Schaumburg to inquire about a letter of support.

For an electronic copy of this document, and other information about the Recovery Act, visit Congresswoman Bean's website, where there is a page dedicated to information on the American Recovery and Reinvestment Act:

www.house.gov/bean/stimulus

This document is available there with direct hyperlinks to each website.

Tax Relief

More than 35 percent of the package will provide direct tax relief to about 95 percent of American workers, and spur investment and job growth for American businesses.

In addition to the information found below, you may visit an IRS site devoted specifically to the Recovery Act at: <http://www.irs.gov/newsroom/article/0,,id=204335,00.html?portlet=6>. To navigate to this information, go to the IRS homepage, www.irs.gov, and select the 'Tax Professionals' tab. The website is labeled, "IRS Information Related to the American Recovery and Reinvestment Act of 2009."

Benefits for Individuals

Making Work Pay Credit

For 2009 and 2010, qualifying taxpayers (dependents, nonresident aliens, estates, and trusts are not qualified) are eligible for the "Making Work Pay Credit," in an amount equal to the lesser of 6.2 percent of the taxpayer's earned income or \$400 (\$800 for taxpayers filing jointly). This credit begins to phase out for individual taxpayers with adjusted gross income of \$75,000 and joint filers with adjusted gross income of \$150,000.

One-Time Economic Recovery Payment for Retirees

The Act provides a one-time \$250 payment to persons who were eligible for the following government benefits within the three months prior to enactment of the new law: Social Security benefits; railroad retirement benefits; veterans' compensation or pension benefits; and supplemental security income benefits. This one-time payment reduces any allowable Making Work Pay credit.

Extension of AMT Relief for 2009

The Act extends tax relief from the individual alternative minimum tax for 2009 by allowing nonrefundable credits to be claimed against the tax and by increasing the AMT exemption amount. This prevents 1,021,000 Illinois taxpayers from seeing an increase in their taxes due to the Alternative Minimum Tax.

Refundable Credit for Certain Government Retirees

For 2009, the Act provides a refundable \$250 credit (\$500 for taxpayers filing jointly who are both eligible for the credit) for retirees who receive a government pension or annuity from work not covered by Social Security and who weren't eligible to receive the One Time Economic Recovery Payment. For example, retired teachers not receiving Social Security and who did not receive the One Time Economic Recovery Payment are eligible for this tax credit, although eligible retirees will need to file a 2009 tax return to receive the credit. The IRS Financial Management Service will be distributing the payments by mail.

Office of Congresswoman Melissa Bean

Exclusion of Unemployment Income

For 2009, the Act provides that a taxpayer's gross income does not include the taxpayer's first \$2,400 of unemployment compensation.

American Opportunity Tax Credit

For 2009 and 2010, the Act provides taxpayers a new "American Opportunity Tax Credit" of up to \$2,500 per year for qualified higher education expenses. The law makes 40 percent of the credit refundable. The credit may be applied against alternative minimum tax liability. The credit will be subject to phase out for individual taxpayers with modified adjusted gross income greater than \$80,000 (\$160,000 for taxpayers filing jointly).

Modified Child Tax Credit

The Act increases the portion of the child care tax credit that is refundable for 2009 and 2010 to 15 percent of the taxpayer's adjusted gross income, up to \$3,000.

Changes in the Earned Income Tax Credit

For 2009 and 2010, the Act temporarily increases the earned income tax credit for working families with three or more children. Under current law, working families with two or more children currently qualify for an earned income tax credit equal to 40 percent of the family's first \$12,570 of earned income. This credit is subject to a phase-out for working families with adjusted gross income in excess of \$16,420 (\$19,540 for married couples filing jointly). The Act increases the earned income tax credit to 45 percent of the family's first \$12,570 of earned income for families with three or more children and increases the beginning point of the phase-out range for all married couples filing a joint return (regardless of the number of children) by \$1,880.

Refundable First-Time Home Buyer Credit

Last year, Congress provided taxpayers with a refundable tax credit that was equivalent to an interest-free loan equal to 10 percent of the purchase of a principal residence (up to \$7,500) by first-time home buyers. The provision applies to homes purchased on or after April 9, 2008 and before July 1, 2009. Taxpayers receiving this tax credit are currently required to repay any amount received under this provision back to the government over 15 years in equal installments, or earlier under certain circumstances (for example, when the home is sold). The credit phases out for taxpayers with adjusted gross income in excess of \$75,000 (\$150,000 in the case of a joint return). The Act eliminates the repayment obligation for taxpayers that purchase homes on or after January 1, 2009, increases the maximum value of the credit to \$8,000, allows financing of the home purchase by mortgage revenue bonds (which was prohibited under the prior credit requirements) and extends the period for which home purchases are eligible through November 30, 2009. Like the pre-Act provision, the Act permits a taxpayer to claim the credit on the taxpayer's 2008 tax return for an eligible purchase in 2009. The Act requires a taxpayer to pay back the amount of the credit if the house is sold within three years of purchase. The Act does not eliminate the requirement that a homebuyer must be a "first time" homebuyer to qualify for the credit.

Computers as Qualified Education Expenses in Section 529 Plans

Office of Congresswoman Melissa Bean

Section 529 Education Plans, such as Illinois' Bright Start program, are tax-advantaged savings plans that cover all qualified education expenses, including: tuition, room & board, mandatory fees and books. The Act provides that computers and computer technology qualify as qualified education expenses.

Sales Tax Deduction for Vehicle Purchases

The Act provides taxpayers who itemize deductions (and do not deduct sales taxes in lieu of income taxes) with an itemized deduction for state and local sales and excise taxes paid on the purchase of new cars, light trucks, recreational vehicles, and motorcycles in 2009. Taxpayers who do not itemize also may claim the deduction as an increased standard deduction. The deduction is phased out for taxpayers with adjusted gross income in excess of \$125,000 (\$250,000 for a joint return). Only taxes attributable to the portion of the purchase price that does not exceed \$49,500 may be deducted.

Energy Incentives

Below is a summary of tax relief programs dedicated to alternative energy development. For information on how to apply for specific provisions, please see the section on "Energy" included later in this guide.

Advanced Energy Tax Credit

The Act establishes a new 30 percent investment tax credit for qualified investment in a "qualifying advanced energy project." A qualifying advanced energy project is a project that re-equips, expands or establishes a manufacturing facility for the production of (i) property designed to be used to produce energy from renewable resources, (ii) fuel cells, microturbines, or energy storage systems for use with electric or hybrid electric motor vehicles, (iii) electric grids to support the transmission of intermittent sources of renewable energy, (iv) property designed to capture and sequester carbon dioxide emissions, (v) property designed to refine or blend renewable fuels or to produce energy conservation technologies, (vi) new qualified plug-in electric drive motor vehicles, qualified plug-in electric vehicles or components designed to for use with such vehicles, or (vii) other advanced energy property designed to reduce greenhouse gas emissions.

These credits are available only for projects certified by the Secretary of the Treasury under a program established in consultation with the Secretary of Energy. A competitive bidding process applies. Up to \$2.3 billion of credits can be certified. Check www.energy.gov for more information as the Advanced Energy Investment Credit is implemented.

Extension of Energy Tax Credit for Electricity Produced from Renewable Resources

The Act includes a three-year extension of the renewable energy production tax credit for wind facilities (through December 31, 2012) and for closed-loop biomass, open-loop biomass, geothermal, small irrigation, hydropower, landfill gas, waste-to-energy, and marine renewable facilities (through December 31, 2013).

Investment Tax Credit in Lieu of Production Tax Credit; Grants from Treasury

Under current law, facilities that produce electricity from solar facilities are eligible to take a 30 percent investment tax credit in the year that the facility is placed in service. Facilities that produce electricity

Office of Congresswoman Melissa Bean

from wind, closed-loop biomass, open-loop biomass, geothermal, small irrigation, hydropower, landfill gas, waste-to-energy, and marine renewable facilities are eligible for a production tax credit. The production tax credit is payable over a ten-year period. Because of current market conditions, it is difficult for many renewable projects to find financing due to the uncertain future tax positions of potential investors in these projects. The Act allows facilities to elect to claim the investment tax credit in lieu of the production tax credit. The Act also permits taxpayers to receive grants from Treasury in lieu of production tax credits for certain renewable energy facilities and certain renewable energy property. The Treasury Department will issue a grant equal to 30 percent of the cost of the renewable energy facility within sixty days of the facility being placed in service (or, if later, within sixty days of receiving an application for the grant). Check www.treasury.gov for more information as this investment tax credit is implemented.

Clean Renewable Energy Bonds (“CREBs”)

The Act authorizes an additional \$1.6 billion of clean renewable energy bonds to finance facilities that generate electricity from the following sources: wind, closed-loop biomass open-loop biomass, geothermal, small irrigation, hydropower, landfill gas, marine renewables and trash combustion facilities. This authorization will be subdivided into thirds: 1/3 will be available for qualifying projects of state/local/tribal governments; 1/3 for qualifying projects of public power providers; and 1/3 for qualifying projects of electric cooperatives.

Qualified Energy Conservation Bonds

The Act authorizes an additional \$2.4 billion of qualified energy conservation bonds to finance state, municipal and tribal government programs and initiatives designed to reduce greenhouse gas emissions, and for other qualified conservation purposes. The Act clarifies that qualified energy conservation bonds may be issued to make loans and grants for capital expenditures to implement green community projects. The Act also clarifies that the bonds may be issued for programs in which utilities provide ratepayers with energy efficient property and recoup the costs of the property over an extended period of time.

Tax Credits for Energy-Efficient Improvements to Existing Homes

The Act extends through 2010 tax credits for improvements to energy-efficient existing homes. The Act increases the amount of the credit to 30 percent of the amount paid or incurred for qualified energy efficiency improvements. The Act eliminates the property-by-property dollar caps on the credits and provides an aggregate cap of \$1,500 on all property qualifying for the credit in a taxable year. The Act also updates the energy-efficiency standards for property qualifying for the credit.

Tax Credits for Alternative Fueling Property

The Act increases for 2009 and 2010 the 30 percent alternative refueling property credit for businesses to a 50 percent credit and increases the cap from \$30,000 to \$50,000. The credit for hydrogen refueling pumps remains at 30 percent, but the cap is raised to \$200,000. The Act also increases the 30 percent alternative refueling property credit for individuals to 50 percent and the cap from \$1,000 to \$2,000 for 2009 and 2010.

Plug-in Electric Drive Vehicle Tax Credit

The Act expands and modifies tax credits for plug-in vehicles and accessories. First, the Act modifies the credit for plug-in vehicles. The base amount of the credit is \$2,500 and is increased if the vehicle draws

Office of Congresswoman Melissa Bean

propulsion from a battery with at least 5 kilowatt-hours capacity. This revised credit applies to vehicle purchases made after December 31, 2009. Second, the Act also allows a new credit of 10 percent of the cost of low-speed vehicles, motorcycles and 3-wheeled vehicles that would otherwise meet the criteria for qualified plug-in vehicle but for the fact that they are low speed or do not have four wheels, for purchases made after the date of enactment of the Act until December 31, 2011. The credit is capped at \$2,500. Third, the Act provides a credit for conversion of a vehicle into a plug-in vehicle through a conversion kit, in an amount equal to 10 percent of so much of the cost of converting that does not exceed \$40,000. The basis in a vehicle used in a trade or business will be reduced by any credit amount that is claimed with respect to that vehicle. In the case of a vehicle used by a tax-exempt entity or a governmental entity, the credit may be claimed by the seller of the vehicle.

Parity for Transit Benefits

The Act equalizes the tax-free benefit employers can provide for transit and parking from March 2011 through December 2010. The benefits are set at \$230 per month for 2009 and indexed for 2010.

Small Business Tax Relief

S Corporation Built-in Gains

The Act includes a temporary reduction in the built-in gains tax period for S corporations. Under present law, an S corporation that sells assets within ten years of converting from C corporation to S corporation status is subject to the built-in gains tax, a corporate tax on the built-in gain that existed at the time of the S election. The Act reduces the 10-year period to 7 years for sales occurring in tax years beginning in 2009 and 2010.

Qualified Small Business Stock

The Act increases the exclusion from income for gain on the sale of certain small business stock held by individuals for more than five years from 50 percent to 75 percent. The benefit would apply to stock issued after enactment and before 2011.

Estimated Taxes for Small Businesses

The Act reduces the required estimated tax payments for 2009 for individuals receiving income from small businesses. The provision applies to an individual if the adjusted gross income shown on the individual's return for 2008 was less than \$500,000 and the individual certifies that more than half of the gross income shown on the individual's return for 2008 was income from a small business with average employment of less than 500.

Net Operating Losses

The Act extends the carryback period for net operating losses for a taxable year ending in 2008 (or at the taxpayer's election, a taxable year beginning in 2008) from two years to five years, for businesses that have \$15 million or less in gross receipts.

General Business Tax Provisions

Expansion of Work Opportunity Tax Credit

The Act expands the work opportunity tax credit to include credits for hiring two new targeted groups of employees – unemployed veterans and disconnected youth – who begin work for the employer in 2009 or 2010. An individual qualifies as an unemployed veteran if he or she was released from active duty in the Armed Forces during the five-year period before hiring and he or she received unemployment compensation for more than four weeks during the year before being hired. A “disconnected youth” is an individual between the ages of 16 and 25 who has not been regularly employed or attended school in the six months preceding hiring and who is “not readily employable by reason of lacking a sufficient number of basic skills.”

Bonus Depreciation

In general, businesses are allowed to recover the cost of capital expenditures over time according to a depreciation schedule. Last year, at the urging of Congresswoman Melissa Bean, Congress temporarily allowed businesses to recover the costs of capital expenditures made in 2008 faster than ordinary tax depreciation rules would allow by permitting these businesses to immediately write off 50 percent of the cost of depreciable property acquired in 2008 for use in the United States. The Act extends this temporary benefit for one year, generally through 2009 (through 2010 for certain long-lived and transportation property).

Also at the urging of Congresswoman Bean, the Act also extends through 2009 the temporary increase to \$250,000 of the amount of depreciable property that small and medium size businesses can expense (i.e., deduct immediately). This benefit is phased out if expenditures on depreciable property exceed \$800,000.

Monetization of Accumulated AMT and R&D Credits in Lieu of Bonus Depreciation

The Act extends through 2009 (2010 for certain aircraft and long-production-period property) a provision included in the Housing and Economic Recovery Act that allows taxpayers to elect to forgo bonus depreciation and instead claim additional alternative minimum tax (“AMT”) and research credits that they may not otherwise be able to use because of limitations on the use of such credits.

Under this provision, the research or AMT credit limitation for electing corporate taxpayers is increased by 20 percent of the bonus depreciation that could otherwise be claimed. The amount is capped at the lesser of 6 percent of (i) outstanding and unused AMT and R&D credits and (ii) \$30 million.

A taxpayer that made the election under the prior act for the first tax year ending after March 31, 2008, may elect to not have the election apply to extension property, i.e., property eligible for the election solely by reason of the amendments made by the Act.

Government Contractor Withholding

For payments made after December 31, 2010, current law requires withholding at a 3 percent rate on certain payments made by federal, state and local governments to contractors providing property or services to the government. The withholding is required regardless of whether the government entity making the payment is the recipient of the property or services, although those with less than \$100

Office of Congresswoman Melissa Bean

million in annual expenditures for property or services are exempt. Numerous government entities and small businesses have raised concerns about the application of this provision. The Act delays for one year (through December 31, 2011) the application of the three percent withholding requirement on government payments for goods and services in order to provide time for the Treasury Department to study the impact of this provision on government entities and other taxpayers.

Deferral of Income from Discharge of Indebtedness

Under present law, a taxpayer generally recognizes income when the taxpayer cancels or repurchases a debt for an amount less than its adjusted issue price or when debt is forgiven. Various exceptions apply to the general rule. The Act allows certain businesses to elect to defer recognition of cancellation of indebtedness income ("CODI") on the "reacquisition" of business debt instruments during 2009 or 2010. The business would defer the CODI for five years in the case of 2009 reacquisition or four years in the case of 2010 reacquisition and then recognize the CODI ratably in income over the following five years.

The new provision applies to debt instruments issued by a C corporation or by any other person in connection with the conduct of a trade or business. A debt instrument is defined as a bond, debenture, note certificate, or any other instrument or contractual arrangement constituting indebtedness.

A "reacquisition" is an acquisition of a debt instrument by the debtor that issued (or is otherwise the obligor under) the debt instrument or a related person to such debtor. The term "acquisition" includes an acquisition for cash, the exchange of the debt instrument or another debt instrument, the exchange of a debt instrument or corporate stock or a partnership interest, and the contribution of the debt instrument to capital. "Acquisition" also includes complete forgiveness of the indebtedness.

Modification of Rules for OID on High Yield Obligations

The Act suspends special rules for original issue discount ("OID") contained in Section 163(e)(5) of the Code in the case of any "applicable high yield discount obligation" ("AHYDO") issued during the period beginning September 1, 2008 and ending on December 31, 2009 in exchange for an obligation which was not an AHYDO and the issuer of which is the same as the issuer of the AHYDO. Section 163(e)(5) ordinarily denies a deduction for a portion of the OID on an AHYDO instrument.

The Act gives the Treasury the authority beginning in 2010 to use a higher rate than prescribed by the Code for purposes of determining whether a debt instrument has a yield that will subject it to the AHYDO rules.

Bond Provisions

The IRS and Treasury will be releasing a new IRS form this spring for bond issuers that wish to participate in these programs. In the meantime, continue to check www.irs.gov for updates or contact a regional office:

Office of Congresswoman Melissa Bean

Recovery Zone Bonds

The Act creates two new categories of bonds for investment in national recovery zones – recovery zone economic development bonds and recovery zone facility bonds. Recovery zone economic development bonds are a new type of tax credit bond that may be issued for qualified economic development purposes, i.e., promoting development or other economic activity in a recovery zone. Recovery zone facility bonds are a new type of tax-exempt private activity bond for capital investments in national recovery zones. The Act authorizes a \$10 billion total allocation for recovery zone economic development bonds and a \$15 billion total allocation for recovery zone facility bonds. These bonds could be issued during 2009 and 2010. Each state would receive a share of the national allocation based on that state's job losses in 2008 as a percentage of national job losses in 2008. The state allocation would be sub-allocated to local municipalities.

Modification to Tax-exempt Interest Expense Rules for Financial Institutions

Financial institutions are not allowed to take a deduction for the portion of their interest expense that is allocable to the institution's investments in tax-exempt municipal bonds. For purposes of this interest disallowance rule, bonds that are issued by "qualified small issuers" are not taken into account as investments in tax-exempt municipal bonds. Under current law, a "qualified small issuer" is defined as any issuer that reasonably anticipates that the amount of its tax-exempt obligations (other than certain private activity bonds) will not exceed \$10 million. The Act increases this dollar threshold to \$30 million when determining whether a tax-exempt obligation issued in 2009 and 2010 qualifies for this small issuer exception. The small issuer exception would also apply to an issue if all of the ultimate borrowers in such issue would separately qualify for the exception. Under the Act, for purposes of determining whether an issuer meets the requirements of the small issuer exception, qualified 501(c)(3) bonds issued in 2009 or 2010 are treated as if they were issued by the 501(c)(3) organization for whose benefit they were issued (and not by the actual issuer of such bonds).

The Act provides a new 2 percent safe harbor for the interest disallowance rule for financial institutions. Under the safe harbor, tax-exempt obligations issued during 2009 and 2010 that do not exceed 2 percent of the adjusted basis of the financial institution's assets are not taken into account for purposes of the interest disallowance rule.

Qualified Zone Academy Bonds

The Act allows an additional \$1.4 billion of Qualified Zone Academy Bonds ("QZAB") issuing authority to state and local governments in 2009 and 2010, which can be used to finance renovations, equipment purchases, developing course material, and training teachers and personnel at a qualified zone academy.

In general, a qualified zone academy is any public school (or academic program within a public school) below the college level that is located in an empowerment zone or enterprise community and is designed to cooperate with businesses to enhance the academic curriculum and increase graduation and employment rates. QZABs are a form of tax credit bonds which offer the holder a federal tax credit instead of tax-free interest.

Qualified School Construction Bonds

The Act creates a new category of tax credit bonds for the construction, rehabilitation, or repair of public school facilities or for the acquisition of land on which a public school facility will be constructed. There

Office of Congresswoman Melissa Bean

is a national limitation on the amount of qualified school construction bonds that may be issued by state and local governments of \$22 billion (\$11 billion allocated initially in 2009 and the remainder in 2010).

Allocations of the national limitation of qualified school construction bonds are divided between the states and certain large school districts. The states receive 60 percent of the national limitation for a calendar year and the remaining 40 percent of the national limitation for a calendar year is allocated to certain large local educational agencies

Qualified school construction bonds must meet the following three requirements: 100 percent of the available project proceeds of the bond issue is used for the construction, rehabilitation, or repair of a public school facility or for the acquisition of land on which such a bond-financed facility is to be constructed; the bond is issued by a state or local government within which such school is located; and the issuer designates such bonds as a qualified school construction bond.

Industrial Development Bonds

Under current law, certain manufacturing facilities are eligible for tax exempt bond financing. Section 144(a)(12)(C) specifically limits the definition of a manufacturing facility for the purposes of such financing to facilities that are used in the manufacturing or production of tangible personal property. The Act, for purposes of industrial development bonds, expands the definition of “manufacturing facility” to include any facility used to create, produce or manufacture intangible property, including any patent, copyright, formula, process, design, knowhow, format, or other similar item. The provision would also treat any functionally related and subordinate manufacturing facility that is located on the same site as the manufacturing facility as a “manufacturing facility” for these purposes.

The Act also describes those physical components of a manufacturing facility that are “ancillary” and subject to a 25 percent limitation in the amount of bond issuance used to build or reconstruct such components.

Alternative Minimum Tax

Interest on private activity bonds is generally treated as an item of tax preference under the minimum tax and included in income for purposes of calculating alternative minimum taxable income. Under the Act, interest on private activity bonds issued during 2009 and 2010 will not be treated as a preference item for purposes of calculating alternative minimum taxable income.

Tax Credit Bonds

Tax credit bonds and tax-exempt bonds provide a subsidy to state and local governments by reducing the cash interest payments that a state or local government must make on its debt. Tax credit bonds differ from tax-exempt bonds in that interest paid on tax credit bonds is taxable, and a portion of such interest takes the form of a tax credit. The tax credit offsets a portion of the cash interest payment that a state and local government would otherwise need to make on the borrowing. The Act, for 2009 and 2010, provides state and local governments with the option of issuing a tax credit bond instead of a tax exempt bond. Bonds issued under this provision are known as Build America Bonds.

The Act also permits state and local governments to elect to receive a direct payment from the federal government equal to the subsidy that would have otherwise been delivered through the tax credit for bonds. The Act provides transitional rules for coordination with state law. The Act provides that until a

Office of Congresswoman Melissa Bean

state provides otherwise, the interest on any taxable governmental bond and the amount of any credit under such bond is treated as exempt from federal income tax for state income tax law purposes.

The Act adds a new Code section that permits regulated investment companies to pass through to their shareholders credits from tax credit bonds. The new provision also allows the tax credits from tax credit bonds to pass through to beneficiaries of real estate investment trusts (REITS).

Benefits for the Unemployed

Extension of Emergency Unemployment Compensation

Through December 31, 2009, this provision continues the Emergency Unemployment Compensation program, which provides up to 33 weeks of extended unemployment benefits to workers exhausting their regular benefits. Those receiving unemployment compensation will automatically receive this extension.

Increase in Unemployment Compensation Benefits

The bill increases unemployment weekly benefits by an additional \$25 through 2009. Those receiving unemployment compensation will automatically receive this increase.

Temporary Suspension of Taxation of Unemployment Benefits

Under current law, all federal unemployment benefits are subject to taxation. The average unemployment benefit is approximately \$300 per month. The proposal temporarily suspends federal income tax on the first \$2,400 of unemployment benefits per recipient. Any unemployment benefits over \$2,400 will be subject to federal income tax. This proposal is in effect for taxable year 2009. The provision will take effect and suspend the withholding of federal income tax on unemployment benefits automatically.

Health Insurance Assistance COBRA (Consolidated Omnibus Budget Reconciliation Act)

To assist individuals in maintaining health coverage, the bill provides a 65% subsidy for COBRA continuation premiums for up to 9 months for workers who have been involuntarily terminated, and for their families. This subsidy also applies to health care continuation coverage if required by states for small employers. To qualify for premium assistance, a worker must be involuntarily terminated between September 1, 2008 and December 31, 2009. The subsidy would terminate upon offer of any new employer-sponsored health care coverage or Medicare eligibility. Workers who were involuntarily terminated between September 1, 2008 and enactment, but failed to initially elect COBRA because it was unaffordable, will be given an additional 60 days to elect COBRA and receive the subsidy. To ensure that this assistance is targeted at workers who are most in need, participants must attest that their same year income will not exceed \$125,000 for individuals and \$250,000 for families.

Current law requires employers to work with employees about how to access COBRA and private health plans. The Act requires employers to also assist former employees in receiving this benefit. Additional information can be found at: <http://www.dol.gov/dol/topic/health-plans/cobra.htm>.

Low-Income Housing Grants in Lieu of Tax Credits

Under current law, taxpayers are allowed to claim a low-income housing tax credit for certain investments made in low-income housing. These tax credits help attract private capital to invest in the construction, acquisition, or rehabilitation of qualified low-income housing buildings. Current economic conditions have severely undermined the effectiveness of these tax credits. As a result, the bill will allow taxpayers to receive a grant from the Treasury Department in lieu of tax credits. Under this provision, state housing agencies will receive a grant equal to up to eighty-five percent of forty percent of the state's

Office of Congresswoman Melissa Bean

low-income housing tax credit allocation in lieu of the low-income housing tax credits they would have received. The sub-awards are subject to the same requirements (including rent, income, and use restrictions on such buildings) as the low-income housing tax credit allocations. The grant program will apply to each state's 2009 low-income housing tax credit allocation.

Transportation

Illinois will receive over \$1.5 billion dollars in transportation funding. It will be distributed through the Illinois Department of Transportation (IDOT). IDOT has nine districts, one of which serves the counties of the Eighth Congressional District.

Grant: Transit Capital Assistance

Amount: \$8.4 billion, \$467,537,681 to Illinois.

Office of Congresswoman Melissa Bean

Type:	Funds are distributed through the existing urban and rural transit formulas - 80% of the capital assistance funds are to be distributed through the Federal Transit Administration's (FTA) urbanized formula; 10% through their rural formula; and 10% through their growing states and high density formula.
Administrator:	Federal Transit Administration
Purpose:	These funds will be used to purchase buses and equipment needed to provide additional public transportation service and to make improvements to intermodal and transit facilities.
Website:	http://www.fta.dot.gov/index_9118.html http://www.dot.state.il.us/default.asp
Contact:	Illinois Department of Transportation 2300 S. Dirksen Parkway Springfield, IL 62764 (217) 782-7820 http://www.dot.state.il.us/
Grant:	Rail & Fixed Guideway Modernization
Amount:	\$750 million
Type:	Funds are allocated by a statutory formula to urbanized areas with rail systems that have been in operation for at least seven years.
Administrator:	Federal Transit Administration / U.S. Department of Transportation
Purpose:	These funds will be used for capital projects to modernize or improve existing fixed guideway systems, including purchase and rehabilitation of rolling stock, track, line equipment, structures, signals and communications, power equipment and substations, passenger stations and terminals, security equipment and systems, maintenance facilities and equipment, operational support equipment including computer hardware and software, system extensions, and preventive maintenance.

Grant:	Capital Investments Grants (New Starts & Small Starts)
Amount:	\$750 million
Type:	Distributed on a discretionary basis for New Starts and Small Starts projects that are already in construction or are nearly ready to begin construction.
Administrator:	Federal Transit Administration - U.S. Department of Transportation
Purpose:	For light rail lines, rapid rail (heavy rail), commuter rail, automated fixed guideway system, or bus-way/high occupancy vehicle (HOV) facilities
Website:	http://www.fta.dot.gov/funding/grants/grants_financing_3590.html

Grant: Federal Aviation Administration - Competitive grants to airports for infrastructure improvements

Amount: \$1.1 billion

Type: Competitive grants

Agency: Federal Aviation Administration

Purpose: Grants to airports who are part of the National Plan of Integrated Airport Systems (NPIAS) for repairs and improving critical infrastructure to improve safety and reduce congestion

Website: <http://www.faa.gov/recovery/>

Grant: Federal Aviation Administration -- Competitive grants to improve FAA power systems

Amount: \$200 million

Type: Competitive grants

Agency: Federal Aviation Administration

Purpose: \$50 million to upgrade the FAA's power system, \$50 million to modernize aging air traffic control centers, \$80 million to replace air traffic control centers and TRACONS, \$20 million to install airport lighting, navigation and landing equipment

Office of Congresswoman Melissa Bean

Website: <http://www.faa.gov/recovery/>

Grant: Competitive Grants to Small Domestic Shipyards

Amount: \$100 million

Type: Competitive grants

Agency: Department of Transportation

Purpose: Grants for investments and improvements

Website: <http://www.dot.gov/recovery/>

Environment

Grant: Clean Water State Revolving Fund

Amount: \$4 billion included for the Clean Water State Revolving Fund, \$180 million for Illinois wastewater infrastructure projects. ARRA funding is limited to 50% of project or \$10 million cap, whichever is less.

Type: Funding provided to states is used to makes loans to communities, individuals, and others for high-priority water-quality activities.

Agency: Illinois Environmental Protection Agency, 217-782-3397

Purpose: To provide relief to communities by requiring a greater federal share for local clean and drinking water projects and greater flexibility for states to reach communities that would otherwise not have the resources to repay a loan with interest.

Activities: Loans are used to build or improve wastewater treatment plants; agricultural, rural, and urban runoff control; estuary improvement projects; wet weather flow control, including storm water and sewer overflows; alternative treatment technologies; and water reuse and conservation projects.

Website: <http://www.epa.gov/owm/cwfinance/cwsrf/>

217-782-2027

Grant: Drinking Water State Revolving Fund

Amount: \$2 billion included for the Clean Water State Revolving Fund, \$80 million for Illinois drinking water projects. ARRA funding is limited to 50% of project or \$5 million cap, whichever is less.

Type: Funding provided to states is used to makes loans to communities, individuals, and others for high-priority water-quality activities.

Administrator: Illinois Environmental Protection Agency, 217-782-3397

Provisions: Directs priority funding to projects on state priority lists that are ready to proceed to construction within 12 months of enactment

Purpose: To provide relief to communities by requiring a greater federal share for local clean and drinking water projects and greater flexibility for states to reach communities that would otherwise not have the resources to repay a loan with interest.

Activities: Loans can be used for the installation and replacement of failing treatment facilities, eligible storage facilities and transmission and distribution systems.

Grant: Bureau of Reclamation -- Clean Drinking Water Fund

Amount: \$1 billion, \$179,033,400 allocated to Illinois

Type: Grants based on priority ranking system

Agency: U.S. Bureau of Reclamation

Purpose: Provide clean, reliable drinking water to rural areas and to ensure adequate water supply to western localities impacted by drought

Website: <http://www.usbr.gov/>

Grant: Watershed Infrastructure

Amount: \$340 million

Type: Grants based on priority ranking system

Agency: Natural Resources Conservation Service

Purpose: Watershed improvement programs to design and build flood protection, water quality projects, repair aging dams, and purchase and restore conservation easements in river flood zones

Website: <http://www.nrcs.usda.gov/programs/recovery/implementation.html>

Grant: Rural Water and Waste Disposal

Amount: \$1.38 billion

Type: Grants

Agency: U.S. Department of Agriculture – State Administrators

Purpose: Help communities fund drinking water and wastewater treatment systems

Grant:	State Energy Efficiency Programs
Amount:	\$3.1 billion
Type:	States receive funding through a formula.
Description:	States use grants to address energy priorities and program funding to adopt emerging renewable energy and energy efficiency technologies.
Contact:	Illinois Department of Commerce and Economic Opportunity Bureau of Energy and Recycling 620 E. Adams Springfield, IL 62701-1615 Phone: 217-785-3416 Website: http://www.commerce.state.il.us/dceo/Bureaus/Energy_Recycling/ State Energy Office Director Jonathan Feipel Energy Division Manager Phone: 217-785-5222 Email: Jonathan.Feipel@illinois.gov State Energy Program Manager Hans Detweiler Deputy Director Phone: 217-785-2009 Email: Hans.Detweiler@illinois.gov

Grant:	Weatherization Assistance Program
Amount:	\$5 billion. Provisions also expand the eligibility of low income households for the Weatherization Assistance Program and increasing the funding assistance level per dwelling (from \$2,500 per dwelling to \$6,500).
Type:	States receive funding through a formula.
Description:	Provides energy efficiency measures in the homes of qualifying homeowners free of charge.
Purpose:	To assist low-income families reduce their energy bills by making their homes more energy efficient.

Grant: Energy Efficiency and Conservation Block Grant (EECBG)

Amount: \$3.2 billion

Type: Competitive grants to government entities

Agency: U.S. Department of Energy

Office: Energy Efficiency and Renewable Energy (EERE)

Purpose: To reduce fossil fuel emissions, decrease overall energy consumption, improve energy efficiency in the transportation, building, and other energy consuming sectors of the economies of eligible entities

Description: Assists states and local governments in implementing strategies to reduce fossil fuel emissions created as a result of activities within the jurisdictions of the eligible entities and reduce the total energy use. Activities eligible to receive funding include: conducting residential and commercial building energy audits; establishing financial incentives programs for energy efficiency improvements; grants to non-profit organizations to perform energy efficiency retrofits; developing/implementing programs to conserve energy used in transportation; developing and implementing building codes and inspection services to promote building energy efficiency; installing light emitting diodes (LEDs); and developing, implementing, and installing on or in any government building onsite renewable energy technology that generates electricity from renewable sources.

Grant: Alternative Fueled Vehicle Pilot Grant Program

Amount: \$300 million
Type: Competitive grants to state governments, local governments, metropolitan transportation authorities, air pollution control districts, and private or nonprofit entities.
Agency: U.S. Department of Energy
Office: Energy Efficiency and Renewable Energy (EERE) – Clean Cities Program
Purposes: To establish a grant program through the DOE Clean Cities Program to encourage the use of plug-in electric drive vehicles or other emerging electric vehicle technologies.
Activities: Funds used for the acquisition of alternative fueled vehicles, fuel cell vehicles or hybrid vehicles, including buses for public transportation and ground support vehicles at public airports. The installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant also eligible.

Grant: Fossil Energy Research and Development Program

Amount: \$3.4 billion
Type: Competitive grants and contracts
Agency: U.S. Department of Energy
Office: Fossil Energy
Description: Research and Development programs include pollution control innovations for traditional power plants, including mercury reduction; improved gasification technologies; advanced combustion systems; development of stationary power fuel cells; improved turbines for future coal-based combined cycle plants; and creation of a portfolio of technologies that can capture and permanently store greenhouse gases.
Website: www.fossil.energy.gov

Grant: Physics Research Science Program

Amount: \$1.6 billion
Type: Competitive grants to universities, companies, and national laboratories
Agency: U.S. Department of Energy
Office: Office of Science
Description: Grants will primarily be awarded for research in high-energy physics, nuclear physics, and fusion energy sciences
Website: www.science.doe.gov
<http://www.science.doe.gov/grants/grants.html>

Office of Congresswoman Melissa Bean

Grant: Advanced Research Projects Agency (ARPA-E)

Amount: \$400 million

Type: Awards to institutions of higher education, companies, research foundations, trade and industry research collaborations, or consortia of such entities, which may include federally-funded research and development centers.

Agency: U.S. Department of Energy

Purposes: To support high-risk, high-payoff research to accelerate the innovation cycle for both traditional and alternative energy sources and energy

Website: <http://www.energy.gov/recovery/>

Loan: Innovative Technology Loan

Amount: \$6 billion

Type: Loan guarantees to eligible applicants, including any firm, corporation, company, partnership, association, society, trust, joint venture, joint stock company, or governmental non-federal entity that meets specific guidelines

Agency: U.S. Department of Energy

Purpose: Loan guarantees for renewable technologies and transmission technologies

Website: <http://www.lgprogram.energy.gov/index.html>

Grant: Nuclear Waste Environmental Cleanup

Amount: \$5.127 billion

Type: Awards based on priorities established by the Department of Energy

Agency: U.S. Department of Energy

Purpose: Accelerate nuclear waste cleanup at sites contaminated as a result of the nation's past nuclear activities

Website: <http://www.em.doe.gov/StatePages/IL.aspx?PAGEID=MAIN>

Housing

Grant:	Public Housing Authorities – Capital Needs Grants
Amount:	\$4 billion
Type:	\$3 billion by state formula \$1 billion for competitive grants
Office:	Office of Public and Indian Housing - Office of Capital Improvements
Agency:	U.S. Department of Housing and Urban Development
Description:	Funds to Public Housing Agencies (PHAs) for building repair and modernization, including critical safety repairs.
Website:	http://www.hud.gov/offices/pih/programs/ph/capfund/ocir.cfm
State Formulas:	http://www.hud.gov/offices/pih/programs/ph/capfund/grants/arra/il.cfm
Grant:	Homelessness Prevention Fund
Amount:	\$1.5 billion
Type:	States and localities receive funding through a formula
Agency:	Department of Housing and Urban Development
Purpose:	Funding provides short-term homeless prevention assistance to those losing their housing.
Website:	http://www.hud.gov/offices/cpd/homeless/programs/esg/
State Formulas:	http://www.hud.gov/recovery/tcap.cfm
Grant:	Community Development Block Grants
Amount:	\$1 billion
Type:	States and localities receive funding through a formula
Administrator:	Department of Housing and Urban Development
Description:	Funding for community and economic development projects including affordable housing and services for those hit hard by tough economic times.
Website:	http://www.hud.gov/recovery/cdblock.cfm
State Formulas:	http://www.hud.gov/recovery/tcap.cfm
Grant:	Neighborhood Stabilization Program
Amount:	\$2 billion
Office :	Office of Community Planning and Development
Type:	Competitive grants
Agency:	U.S. Department of Housing and Urban Development
Description:	Help communities purchase and rehabilitate foreclosed, vacant properties in order to

Office of Congresswoman Melissa Bean

create more affordable housing and reduce neighborhood blight.

Website: <http://www.hud.gov/offices/cpd/communitydevelopment/programs/neighborhoodspg/>
State Formulas: <http://www.hud.gov/recovery/tcap.cfm>

Grant: Lead Hazard Reduction Program

Amount: \$100 million
Type: Competitive grants
Office: Office of Healthy Homes and Lead Hazard Control
Agency: U.S. Department Of Housing and Urban Development
Description: Funds for competitive grants to local governments and nonprofit organizations to remove lead-based paint hazards in low-income housing.
Website: <http://www.hud.gov/offices/lead/grantprograms.cfm>
State Formulas: <http://www.hud.gov/recovery/tcap.cfm>

Grant: Native American Housing

Amount: \$510 million
Type: \$255 million through a formula
\$255 million for competitive grants
Agency: U.S. Department Of Housing and Urban Development
Eligibility: Eligible applicants include Indian tribes or tribally designated housing entities (TDHEs) eligible to receive funding under NAHASDA (25 U.S.C. 4101 et seq.)
Website: <http://www.hud.gov/recovery/native-american-formula.cfm>
State Formulas: <http://www.hud.gov/recovery/tcap.cfm>
